Environments that Educate and Energize - 1.5 hours - The classroom set up of any family child care home speak volumes of the true learning that takes place. The set up of the classroom is important to allow students freedom to learn, explore, and play. The materials should reflect the students and their interests. Is your family child care home set up for success? This training will explore how to set up the centers, where they should be placed, what key elements you want to have in your centers, and how to meet diversity needs in the classroom. This training is provided by a family home provider for family home providers. Supplemental material and supportive resources will be provided.

Presented By: Harriett Holmes, NAFCC Accredited Family Child Care Home Provider
