Our Objectives and Purpose

- ✓ **To promote** the development of *high-quality* educational programs and operational procedures which will enable the family child care provider to more effectively furnish a safe, nurturing and creative environment for the children they serve.
- ✓ **To foster** the development of local association chapters.
- ✓ **To encourage** and support the education of parents, businesses, corporations and the communities of Florida in general, concerning quality home child care.

To participate with policy-making agencies (city, county, state and federal) to work for changes, modifications, and implementation of standards necessary to provide high quality child care for all children.
