**PLEASE NOTE: Arrive as early as 8:45 am to sign in. Training starts promptly at 9:00 am!**

## ***AI Basics for Family Child Care (FCC) Educators***

**2 hours**

**Presenter: Bill Hudson**, Director and co-founder of the Family Child Care Alliance of Maryland

This beginner-friendly workshop introduces FCC educators to AI (artificial intelligence) in plain language and shows how it can support day-to-day work—without replacing the relationships and professional expertise that make FCC programs special. Participants will learn what AI can and can't do, explore common tools for text, images, and video, and get a simple walkthrough of using ChatGPT for planning, communication, and problem-solving. We'll cover how to write effective prompts, demonstrate real FCC use cases (lesson ideas, documentation, newsletters, and policies), and discuss safety, privacy, and ethical considerations. The session closes with easy ways to stay current with AI without feeling overwhelmed.

**If you need accommodation because of a disability to participate in the childcare training process, contact Annette Eberhart at least two weeks before the training date at 813-493-0828 between 9 am and 5 pm Monday - Friday. There will be NO refunds after deadline. If you do not attend this training, the training fees will not be refunded or transferred to another person.**
