A New Online Course is Coming!

Want to avoid the most common violations?

In July, the Department of Children and Families will launch the “*Stay Compliant with the Top Ten Violations (SCTT)*” online course. This new course will help you identify the most common violations and how to avoid them.

Visit www.myflfamilies.com/childcaretraining for training information. Or log into your Child Care Training Account to view online courses.

Hurricane Season

Hurricane Season is officially underway, and the Department of Children and Families is encouraging you to be prepared. The season began June 1 and continues through November 30. All providers are encouraged to take the time to prepare their families and homes for the season. Additionally, now is a good time to review your program's emergency preparedness plan and ensure all necessary supplies are available. When reviewing your plan, think about activities that occur before/after a storm. Below are some examples.

Before the Storm:

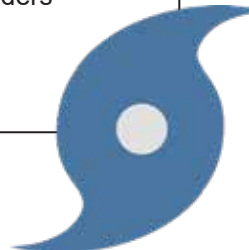

- Coordinate with your licensing counselor to ensure that your contact information is update to date
- Make sure child care personnel (substitutes and employees for Large Family Child Care Home) know your program's Emergency Preparedness policies and procedures
- Have a plan in place for communicating with parents/guardians
- Ensure you have hurricane supplies
- Secure buildings and any outdoor items that are not anchored down

After the Storm:

- Contact your licensing counselor within 24 hours to update them on the operational status of your program
- If your program is without power you may not operate, unless powered by an alternate power source, such as a generator, that is permanently installed and maintained in accordance with the manufacturer's recommendations and comply with the Florida Building Code and the Florida Fire Prevention Code 69A-60, F.A.C. The alternate power source and fuel supply shall be located in an area that is not subject to flooding or damage from storm surge
- Childcare programs may re-open/remain open if there is no structural damage, the site has full electrical service, and the water and sewage/septic tank are working properly

Visit www.myflfamilies.com/childcare to view Emergency Preparedness information in the “Providers” section.

Take every precaution to be safe!

The Association of
Early Learning Coalitions

Who We Are

The Association of Early Learning Coalitions (AELC) supports the role of Florida's 30 Early Learning Coalitions (ELCs) to develop and administer a comprehensive system of early care and education that supports families and prepares young children to succeed in school and in life.

The AELC's main priority is to advocate for continued investment in early learning by informing policy makers and the public about the benefits of early education and the importance of preserving parental choice and access for Florida's youngest learners.

Mission

To strengthen Florida's early learning system through innovation, leadership and advocacy.

Primary Goal

Prioritize Florida's youngest learners by providing access to a quality education that promotes Kindergarten readiness and allows families to enter and thrive in the workforce with a clear path toward upward mobility and long-term economic self-sufficiency.

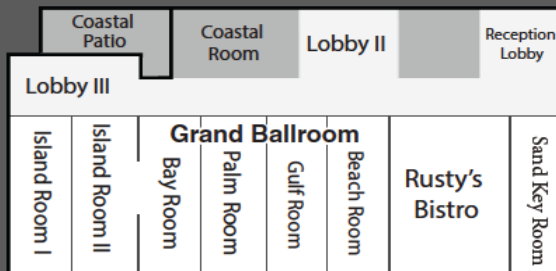

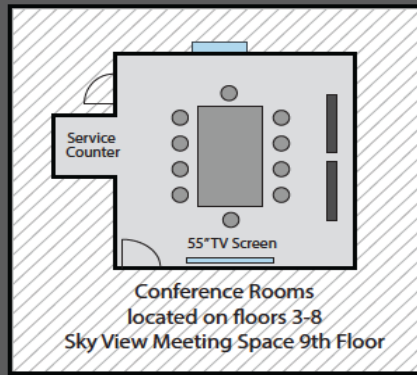

Vision

Florida's children are supported in a community dedicated to ensuring they reach their full potential.
